

Rapid implementation to iMIS for Unions

Zentso has created a lean and quick implementation process for Unions looking to set up and implement the iMIS for Unions Suite; an out-the-box template of standard CRM features built especially for Unions, by Unions.

It provides the essential configuration, data setup, and training needed to get your team using iMIS as quickly and confidently as possible.

Who this approach suits?

Unions that want a straightforward and timely rollout of iMIS with a template that includes standard features for unions, and requires minimal customisation. Well suited for small to mid-sized unions looking to adopt standard processes.

What's included?

- Configuration of core iMIS modules within the Union template (Membership, Member fees, Organising, Case Management, and Collective Agreements)
- Pre-built workflows, templates, and online forms tailored for unions
- Initial migration of all member data
- Standard dashboards and reporting tools for staff
- Staff training on core functions and day-to-day tasks

Key benefits

- 1 Faster implementation - go live within a few months after kick-off
- 2 Lower overall implementation costs
- 3 Reduced manual work through standard membership, dues, and case processes
- 4 Better data accuracy through consistent and proven configurations
- 5 A clear set-up that avoids unnecessary complexity
