

ENVIRONMENTAL POLICY

Zentso and its staff strive to act in accordance with the applicable statutory and international standards regarding environmental protection at all times.

We aim to minimize environmental pollution or degradation and make continuous improvements in environmental protection.

We are committed to sustainable development (meeting the needs of the present without compromising the ability of future generations to meet their own needs) as a guiding principle within our work. Concern for the environment is an integral and fundamental part of this commitment.

Our aim is to

We aim to:

- reduce the impact on the environment from our operations
- promote responsibility for the environment within the organisation
- reduce the use of energy, water and other resources
- minimise waste by reduction, re-use and recycling methods
- comply with all relevant environmental legislation/regulation
- ensure that our policies and services are developed in a way that is complimentary to this policy
- not prioritise funding needs ahead of sustainability requirements
